The Kia Syros EV

Superior beyond belief.

Movement that inspires

Beyond what an EV should be.

The Kia Syros EV is built for those who expect more from every drive. More range for longer journeys. More space for everything life brings along. More technology that feels intuitive. And more confidence, every time you get behind the wheel. From its bold SUV design to its advanced electric powertrain and connected technologies, every aspect of the Syros EV has been designed around what matters most to you. Because superiority isn't measured by one thing. It's measured by how everything comes together to create a better electric vehicle.

Best-in-class
526 km Range

Best-in-class
126 kW (171 PS)

Best-in-class
Charging Time - 39 min*

Best-in-class
10.8 kW Onboard Charging Capacity

*With DC Fast Charging on 100kW charger

Stand out. Effortlessly.

The Kia Syros EV blends bold SUV styling with a distinctly electric character. Its upright higher stance, squared shoulders and signature lighting come together to create a strong presence that's hard to miss. Every detail serves a purpose, balancing striking design with everyday functionality. The result is an SUV that feels familiar at first glance, yet unlike anything you've driven before.

100W C-Type USB Charger

4-Way Driver Power Seat

Floating Console with Premium Sliding Cover, Retractable Cup Holders & Open Storage

Go further. Worry less.

Built to leave range anxiety behind, the Kia Syros EV gives you the freedom to choose between two battery packs, each engineered to deliver confidence on every journey. Whether it's the daily commute or a drive that takes you further, an extended driving range of 526 km* ensures you're ready for more. With Kia's globally proven EV technology, fast charging capabilities and K-Charge ecosystem*, the Syros EV is built to help you make the most of every charge.

51.4 kWh Battery
ARAI Certified MIDC Full Range:
526 km* per charge

42 kWh Battery
ARAI Certified MIDC Full Range:
443 km* per charge

*The individual driving style and other factors, such as speed, outside temperature, topography and the use of electricity-consuming devices/units, have an influence on the real-life range regeneration level, and can possibly reduce it. Range as per ARAI MIDC-Full.
#i-Pedal Regen technology is not a complete replacement for the brake pedal, and drivers should always be prepared to use the brake pedal for emergencies or when more forceful braking is needed.

V2L - Vehicle-to-Load (Internal)
(Only in X-Line)

Paddle Shifters for i-Pedal & Regen Braking#

Frunk with Cover (16*l*)

Side Charging Port

Quick to charge. Ready to go.

The Kia Syros EV makes charging simple and convenient. From everyday top-ups at home to fast charging on the move, it's designed to fit seamlessly into your lifestyle. With the best-in-class charging speed of 10-80% in just 39 minutes on DC fast charger, the Syros EV gives you the power to spend less time charging and more time doing what matters.

11kW Wall Box Charger

Estimated AC Fast Charging 4 h 50 min for Extended Range and 4 h for Standard Range (SOC 10% to 100%)** from 11kW AC Fast Charger

- 3-phase charging capability
- Recommended for extended battery range vehicle

7.4kW Wall Box and Portable Charger

Estimated AC Fast Charging 7 h 15 min for Extended Range and 6 h for Standard Range (SOC 10% to 100%)** from 7.4kW AC Fast Charger

- Single-phase charging capability
- Recommended for standard battery range vehicle

Charger is not a part of the standard fitment and is available for purchase separately as an accessory.
**Depending on the condition of high voltage battery, charger specifications, and ambient temperature, the time required for charging the high voltage battery may vary.

More protection.
More confidence.

The Kia Syros EV is built with a strong structure and advanced safety technologies designed to help protect you and everyone on board. For pedestrians and those around, it comes equipped with Virtual Engine Sound System to keep them alert to its presence. This way, the Syros EV ensures safety both for those inside and outside.

6 Airbags

The magic of 5

Navigation
Enjoy comfortable commuting with LIVE traffic updates, LIVE tracking and other features.

Remote Control
Start and stop the engine, control the AC, lock and unlock or even check vehicle status remotely.

Safety & Security
Protect your car 24x7. If anyone tries to mishandle your car, Kia Connect will alert you immediately so that you can take timely action.

Convenience
Voice-recognition provides enhanced driving experience and excellent driving pleasure.

Vehicle Management
Stay updated with the well-being of your car and manage regular maintenance reports.

K-Charge: Charge ahead. Confidently.

Charging your Kia Syros EV is designed to be simple and convenient. With K-Charge*, you get seamless access to a growing charging network, making it easier to find and access charging wherever you go.

Why K-Charge?

20 000+
charging points nationwide

23 leading
Charge Point Operators (CPOs) integrated

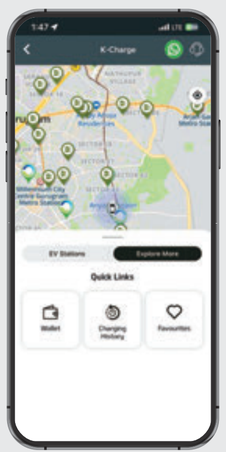

Fast EV charging
network spanning PAN India

How it works

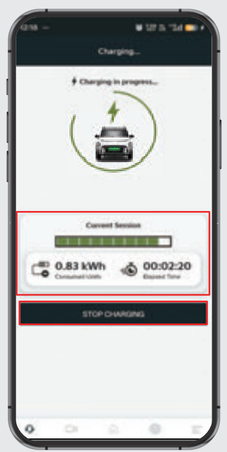

With the easy-to-use K-Charge on My Kia App, charging your EV is just four simple steps away:

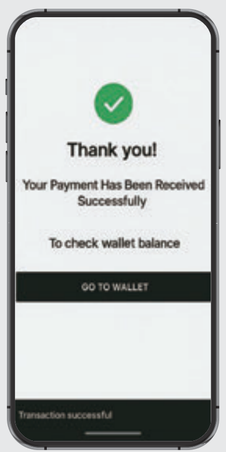

Locate
nearby charging stations

Navigate
directly to your selected charger

Use
charging services effortlessly

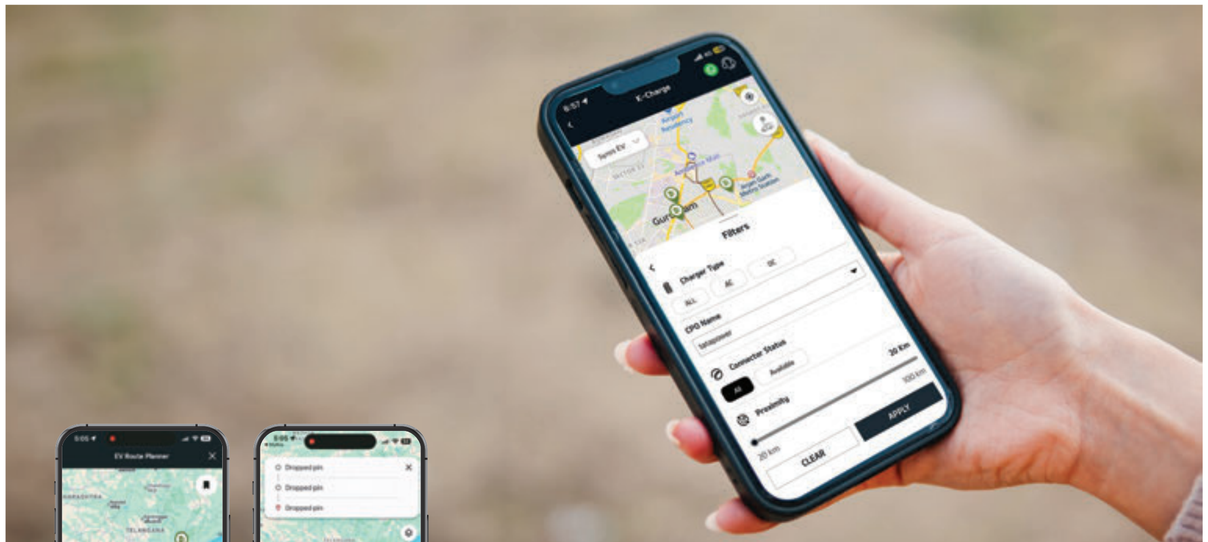

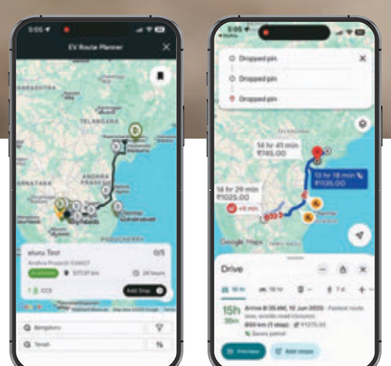

Pay
securely through the App

*K-Charge is a platform of Kia India Pvt. Ltd. ("Kia") which assists / facilitates users to locate, access, and pay for EV charging services ("Services")offered by third-party Charging Point Operators (CPOs). Users hereby agree and acknowledge that all charging services are delivered by third-party CPOs. Kia only facilitates the above Services and shall not be liable for service interruptions, equipment failures or inaccuracies in availability/status provided by the CPOs or for any other service provided by CPO's relating to the EV Charging including but not limited to any permanent or temporary functioning / damage to the Vehicle. Kia disclaims any liability for physical damage, safety incidents or performance issues at third-party charging stations. Users are responsible for ensuring proper connection and safe charging practices as per guidelines provided by CPO's.

EV Route Planner: Smarter journeys. Simpler drives.

The Kia Syros EV helps take the uncertainty out of longer journeys. The integrated EV Route Planner intelligently maps your route, recommends charging stops when needed and helps you stay informed along the way.

How it works

- Enter your starting point
- Enter your destination
- Tap 'OK'

While navigating from point A to point B, available charging stations along the route are instantly displayed, ensuring seamless travel and uninterrupted mobility. Here's an example:

Origin*
Bengaluru, Karnataka

Destination*
Tenali, Andhra Pradesh

Get Directions

Beyond ownership.
Beyond expectations.

The Kia Syros EV is backed by an ownership ecosystem designed around convenience, confidence and peace of mind. From connected services and digital support tools to extensive warranty coverage and EV-ready service networks, everything is there to help you get the most from your EV. Giving you support when you need it, and peace of mind throughout ownership.

*For more information, contact your nearest Kia dealership. BaaS (Battery as a Service) price is a dual-loan finance product for battery and chassis separately. The finance scheme is subject to credit appraisal and approval by individual finance companies/ banks/ NBFCs and their respective terms and conditions. Running cost of ₹3.3 per km assuming monthly running of 2 030 km (Standard Range) and 2 450 km (Extended Range). Calculations are based on assumptions and for illustration purposes only: final offer depends on loan amount, tenure, and applicable rate of interest at the time of availing finance, as chosen by the customer. Mentioned plan is for Kia Syros EV model only. BaaS price is on Ex-Showroom basis and excludes all Government statutory levies including road tax, insurance, TCS, and other applicable charges, which are to be borne by the customer. ^^Depending on the condition of high voltage battery, charger specifications, and ambient temperature, the time required for charging the high voltage battery may vary.

Choose your superior drive.
