DISTINCTIVE PRESTIGE

Opulent Captain Seats

The DENZA D9's captain seats encompass an electric slide rail, creating an exceptionally spacious interior. The ergonomic, zero-gravity seats are crafted from the finest leather and come equipped with ten-way electric adjustment, six-way adjustable sleeping headrests, electric leg rests, and wide-angle backrest adjustment.

Comfortable Third Row

The width of the third-row corridor platform reaches 170mm, offering generous legroom up to 1040mm. Ample elbow and head space redefine MPV rear seat standards. ISOFIX mounting is available, with the capacity to install up to four child safety seats in the middle and rear rows.

Customize entairtainment and seat settings from personal LCD control panels.

Versatile Trunk

The enormous 410L to 570L trunk can accommodate any lifestyle needs. With enough room to fit a large air bed, the DENZA D9 takes luxury road trips to the next level.

Integrated Refrigerator and Warmer

The middle row features a smart beverage cabinet with a heating and cooling box, an electric tray, and cup holders. The heating and cooling box supports cloud control and includes a forgotten item reminder.

Immersive Acoustics

The DENZA D9 is equipped with 14 Dynaudio speakers and 7.1-channel surround sound technology. Custom-tuned by Dynaudio's chief tuner Bjarke, it creates a concert-like auditory experience.

Driven by

DETAILED SAFETY FEATURES

Intelligent Body Control System

The DiSus-C smart damping body control system maintains the vehicle's agility, whether during high-speed cornering or full-throttle acceleration, ensuring comfort for the driver and all passengers in most driving scenarios.

Complete Protection

With 9 airbags strategically positioned in the front, middle, and third rows — including side curtain airbags spanning all three rows and a central airbag — the DENZA D9 places the utmost emphasis on safety, providing the assurance and peace of mind to relax and enjoy the journey.

Uncompromised Safety

High-strength steel plates, making up to 75% of the vehicle, are used throughout. The double anti-collision beam design, aluminium alloy main anti-collision beam, thermoformed rear anti-collision beam, four-door safety bars, and composite body structure ensure maximum protection for everyone.
